

**Nursing and Midwifery Council  
Investigating Committee**

**Interim Order Review Meeting  
Thursday, 4 January 2024**

Virtual Meeting

<b>Name of Mr Cang:</b>	Raniel Cang
<b>NMC PIN</b>	17D00770
<b>Part(s) of the register:</b>	Registered Nurse – Sub Part 1 Adult Nursing (Level 1) – 13 April 2017
<b>Relevant Location:</b>	Blackpool
<b>Panel members:</b>	Jacqueline Nicholson (Chair, registrant member) Judith Ebbrell (Registrant member) Sally Allbeury (Lay member)
<b>Hearings Coordinator:</b>	Khatra Ibrahim
<b>Interim order to be reviewed:</b>	Interim suspension order (15 months)
<b>Outcome of review:</b>	<b>Interim suspension order confirmed</b>

## **Decision and reasons on interim order**

The panel decided to confirm the current interim suspension order.

Unless Mr Cang's case has already been concluded or there has been a material change of circumstances, a panel will review the interim suspension order at a review meeting within the next six months and every six months thereafter. A panel will be invited by the Nursing and Midwifery Council (NMC) to confirm the interim suspension order at this meeting and Mr Cang will be notified of the panel's decision in writing following that meeting.

Where there has been a material change of circumstances that might mean that the order should be revoked or replaced, or there has been a request for an early review, a panel will review the interim order at a hearing which Mr Cang will be invited to attend in person, send a representative on Mr Cang's behalf or submit written representations for the panel to consider. At any such review hearing the panel may revoke the interim order, it may confirm the interim suspension order or it may replace it with an interim conditions of practice order.

The NMC Case Examiners are yet to decide whether there is a case to answer in relation to the allegations made against Mr Cang. The NMC will write to Mr Cang when the case is ready for the next stage of the fitness to practise process.

This will be confirmed to Mr Cang in writing.

That concludes this determination.
