Summary of review and findings

BPP University (BPP), an approved education institution (AEI), is a private institution who currently deliver three-year full-time Bachelor of science (BSc) (Hons) direct entry routes leading to nursing registration in one of three fields (adult, child or mental health). They also deliver a four-year part-time BSc (Hons) nurse degree apprenticeship (NDA) route in the fields of adult or child nursing. The original programme with these five routes was approved on 9 March 2020. BPP have also been approved to deliver three-year NDA routes in adult and child nursing, via a programme modification approved on 10 May 2021.

BPP's school of nursing (the school) is seeking approval for a modification to their pre-registration nursing programme involving the addition of a new route. The school propose a four-year part-time BSc (Hons) nursing (mental health) (NDA) There'll be one intake per year, in September.

The visit is undertaken remotely due to the COVID-19 pandemic.

The Standards framework for nursing and midwifery education (SFNME) (Nursing and Midwifery Council (NMC), 2018) Standards for student supervision and assessment (SSSA) (NMC, 2018) and Future nurse: Standards of proficiency for registered nurses (FN:SPRN) (NMC, 2018) are mapped against the original programme approved in March 2020. The programme documentation and evidence presented at the major modification visit confirm that the curriculum content, assessment strategy and practice experiences in the proposed NDA in mental health nursing are the same as those previously approved in the direct entry mental health route.

During the modification visit three employer partners (EPs) confirm their commitment to the partnership with BPP, to ensure the effective delivery and continuing development of the NDA in mental health nursing. These employers are Pennine Care NHS Foundation Trust, Camden and Islington NHS Foundation Trust and Surrey and Borders Partnership NHS Foundation Trust.

The programme documentation confirms evidence of effective partnership working between BPP and key stakeholders. The programme is developed in consultation with EPs, practice learning partners (PLPs), existing students and service users and carers (SUCs). The strength of the established partnerships is evident in the discussions with EPs, senior staff from PLPs and students during the visit.

The students at the visit include mental health students from the direct entry route and apprentices undertaking routes in the adult and child fields. They're based in different BPP locations but are consistent in their enthusiasm for the programme. All comment positively about the organisation of their studies and the wide range

of support mechanisms in place to support their learning in both theory and practice.

Practice assessors and practice supervisors comment favourably about their links to BPP and the support offered by the AEI. The programme team confirm that they use local practice assessment documents (PADs) depending on the locality of placement experiences. The NDA in mental health nursing is delivered in two centres, one in Doncaster and one in London. Students undertaking the programme in the Doncaster location are assessed using the north east PAD, while those studying in London are assessed using the pan-London PAD. Both PADs have previously been approved.

The SFNME is not met in the modified programme as a condition applies.

The SSSA are met at programme level.

The programme is recommended to the NMC for approval subject to one condition. One NMC recommendation is made. The university also make one recommendation.

Updated 29 June 2021:

Evidence has been submitted to meet the condition.

The programme is recommended to the NMC for approval.

Findings against the standard and requirements

Provide an <u>evaluative summary</u> about the effectiveness of the partnerships between the AEI and their practice learning partners, service users, students and any other stakeholders.

The programme documentation provides evidence of effective partnership working between BPP and key stakeholders. The programme is managed in partnership with EPs and PLPs, who contribute to curriculum design, programme enhancement and delivery and practice learning. Practice learning includes the monitoring of supernumerary status and protected learning time, assessment, monitoring progression and programme evaluation. EPs play a key role in

MOTT MACDONALD

recruitment and selection, the confirmation of good health and good character and fitness to practise processes. EPs and PLPs working in partnership with BPP to deliver the new mental health NDA route are part of the established placement partner forum, joining other BPP EPs and PLPs to ensure consistent and effective management of apprentices' practice experience. The EPs' apprenticeship leads tell us that engagement with BPP is good and that support for practice assessors and practice supervisors is in place via the established BPP link tutor system.

The strength of the established partnerships is evident in discussions with EPs, senior staff from PLPs and students during the visit. The new mental health NDA route has been developed in partnership with EPs and PLPs and draws on feedback from SUCs and students to ensure consistency across programmes and effective delivery.

Students are positive about support provided for theory and practice learning in the current pre-registration nursing programme. During the visit we met a range of students, including mental health students from the direct entry route and apprentices undertaking programmes in the adult and child fields. They're based in different BPP locations but are consistent in reporting that effective support is available in both theory and practice settings. Students tell us that academic resources, including library and skills labs, pastoral support and support for students with additional learning needs, is readily accessible. Students tell us that there's a group representative system in place and the representatives are part of the BPP student voice forum, which meets regularly.

SUC engagement appears to be well established and the programme team tell us that a new SUC forum has been developed within the school of nursing. The students we met comment positively on the contribution of SUCs to their programme, particularly in relation to mental health.

During the approval visit we met three EPs who confirm their commitment to the partnership with BPP, to ensure the effective delivery and continuing development of the NDA in mental health nursing. These EPs are Pennine Care NHS Foundation Trust, Camden and Islington NHS Foundation Trust and Surrey and Borders Partnership NHS Foundation Trust. All three EPs confirm their engagement with BPP in establishing processes to support the preparation of practice assessors and practice supervisors, to ensure that NMC requirements in respect of the SSSA are met.

The programme team tell us that apprenticeship partners sign an agreement confirming their support and engagement for the programme. These haven't been completed at the time of the visit. The programme team must provide written evidence of commitment by EPs. (Condition one)

Assurance is provided that the AEI works in partnership with their practice learning partners, service users, students and all other stakeholders as identified in Gateway 1: *Standards framework for nursing and midwifery education*

While the proposed EPs indicate their commitment at the visit, they haven't provided a written signed agreement. The agreements need to be provided to meet all regulatory requirements and assure us of the partnership approach between BPP and EPs.

Student journey through the programme
Standard 1: Selection, admission and progression
Approved education institutions, together with practice learning partners, must: R1.1 Confirm on entry to the programme that students: R1.1.1 are suitable for their intended field of nursing practice:

adult, mental health, learning disabilities and children's nursing

R1.1.2 demonstrate values in accordance with the Code

R1.1.3 have capability to learn behaviours in accordance with the Code

R1.1.4 have capability to develop numeracy skills required to meet programme outcomes

R1.1.5 can demonstrate proficiency in English language

R1.1.6 have capability in literacy to meet programme outcomes

R1.1.7 have capability for digital and technological literacy to meet programme outcomes.

R1.2 ensure students' health and character are sufficient to enable safe and effective practice on entering the programme, throughout the programme and when submitting the supporting declaration of health and character in line with the NMC's health and character decision-making guidance. This includes satisfactory occupational health assessment and criminal record checks

R1.3 ensure students are fully informed of the requirement to declare immediately any cautions or convictions, pending charges or adverse determinations made by other regulators, professional bodies and educational establishments, and that any declarations are dealt with promptly, fairly and lawfully

R1.4 ensure the registered nurse responsible for directing the educational programme or their designated registered nurse substitute are able to provide supporting declarations of health and character for students who have completed a pre-registration nursing programme

R1.5 permit recognition of prior learning that is capable of being mapped to the *Standards of proficiency for registered nurses* and programme outcomes, up to a maximum of 50 percent of the programme and comply with Article 31(3) of Directive 2005/36/EC (included in annexe one of programme standards document)

R1.6 for NMC registered nurses permit recognition of prior learning that is capable of being mapped to the *Standards of proficiency for registered nurses* and programme outcomes that may be more than 50 percent of the programme

R1.7 support students throughout the programme in continuously developing their abilities in numeracy, literacy, digital and technological literacy to meet programme outcomes, and

R1.8 ensure that all those enrolled on pre-registration nursing programmes are compliant with Article 31(1) of Directive 2005/36/EC regarding general education length as outlined in annexe one in programme standards document.

Standard 2: Curriculum

Approved education institutions, together with practice learning partners, must:

R2.1 ensure that programmes comply with the NMC *Standards framework for nursing and midwifery education*

R2.2 comply with the NMC *Standards for student supervision and assessment*

R2.3 ensure that programme learning outcomes reflect the *Standards of proficiency for registered nurses* and each of the four fields of nursing practice: adult, mental health, learning disabilities and children's nursing

R2.4 design and deliver a programme that supports students and provides exposure across all four fields of nursing practice: adult, mental health, learning disabilities and children's nursing

R2.5 state routes within their pre-registration nursing programme that allows students to enter the register in one or more of the specific fields of nursing practice: adult, mental health, learning disabilities or children's nursing

R2.6 set out the general and professional content necessary to meet the *Standards of proficiency for registered nurses* and programme outcomes

R2.7 set out the content necessary to meet the programme outcomes for each field of nursing practice: adult, mental health, learning disabilities and children's nursing

R2.8 ensure that field specific content in relation to the law, safeguarding, consent, pharmacology and medicines administration and optimisation is included for entry to the register in one or more fields of nursing practice

R2.9 ensure the curriculum provides an equal balance of theory and practice learning using a range of learning and teaching strategies

R2.10 ensure that programmes delivered in Wales comply with legislation which supports use of the Welsh language

R2.11 ensure pre-registration nursing programmes leading to registration in the adult field of practice are mapped to the content for nurses responsible for general care as set out in Annexe V.2 point 5.2.1 of Directive 2005/36/EC (included in Annexe 1 of programme standards document)

R2.12 ensure that all pre-registration nursing programmes meet the equivalent of minimum programme length for nurses responsible for general care in Article 31(3) of Directive 2005/36/EC (included in Annexe 1 of programme standards document)

R2.13 ensure programmes leading to registration in two fields of nursing practice are of suitable length to ensure proficiency in both fields of nursing, and

R2.14 ensure programmes leading to nursing registration and registration in another profession, are of suitable length and nursing proficiencies and outcomes are achieved in a nursing context.

- There is evidence that the programme complies with the NMC *Standards for student supervision and assessment* (R2.2)

  YES ☒   **NO** ☐

- Mapping to show how the curriculum and practice learning content reflect the *Standards* of *proficiency for registered nurses* and each of the four fields of nursing practice: adult, mental health, learning disabilities and children's nursing (R2.3)

  YES ☒   **NO** ☐

Provide an <u>evaluative summary</u> from your documentary analysis and evidence AND discussion at the approval visit to demonstrate if assurance is provided that the QA approval criteria below is met or not met.

- There is evidence to show how the design and delivery of the programme will support students in both theory and practice to experience across all four fields of nursing practice: adult, mental health, learning disabilities and children's nursing (R2.4)

  MET ☒   **NOT MET** ☐

R2.4 is met. Unchanged since the original approval on 9 March 2020 and modification on 10 May 2021.

- Evidence that programme structure/design/delivery will illustrate specific fields of practice that allows students to enter the register in one or more specific fields of nursing practice. Evidence of field specific learning outcomes and content in the module descriptors (R2.5)

  MET ☒   **NOT MET** ☐

R2.5 is met. Unchanged since the original approval on 9 March 2020 and modification on 10 May 2021.

Evidence provides assurance that the following QA approval criteria are met:

- There is evidence that mapping has been undertaken to show that the programme meets NMC requirements of the *Standards of proficiency for registered nurses* (R2.6)

  YES ☒   **NO** ☐

  There is evidence that mapping has been undertaken to set out the content necessary to meet the programme outcomes for each field of nursing

practice: adult, mental health, learning disabilities and children's nursing (R2.7)

YES ☒   **NO** ☐

Provide an <u>evaluative summary</u> from your documentary analysis and evidence AND discussion at the approval visit to demonstrate if assurance is provided that the QA approval criteria below is met or not met.

- There is evidence that mapping has been undertaken to ensure that field specific content in relation to the law, safeguarding, consent, pharmacology and medicines administration and optimisation is included for entry to the register in one or more fields of nursing practice (R2.8)

MET ☒   **NOT MET** ☐

R2.8 is met. Unchanged since the original approval on 9 March 2020 and modification on 10 May 2021.

- The programme structure demonstrates an equal balance of theory and practice learning. This is detailed in the designated hours in the module descriptors and practice learning allocations. A range of learning and teaching strategies are detailed in the programme specification, programme handbook and module descriptors with theory / practice balance detailed at each part of the programme and at end point.
  There are appropriate module aims, descriptors and outcomes specified. There is a practice allocation model for the delivery of the programme that clearly demonstrates the achievement of designated hours for the programme detailed. (R2.9)

MET ☒   **NOT MET** ☐

R2.9 is met. During the visit the programme team confirm that students undertaking the four-year degree apprenticeship programme are employed in a clinical base. They spend three days a week in protected learning time, undertaking academic study and clinical placements. Clinical placements are arranged in a variety of mental health environments in accordance with NMC requirements, and students are supernumerary during their clinical placements. Students spend two days a week working in their clinical base. This pattern is identical to the established pattern of working on the adult and child four-year NDA routes already in approval.

The new mental health NDA route documentation confirms that there's an equal balance of theory and practice learning. The structure of this four-year NDA route mirrors that approved for adult and child nursing. The modules in the mental health NDA are the same as those already approved in the mental health direct entry route.

Evidence provides assurance that the following QA approval criteria are met:

- Evidence to ensure that programmes delivered in Wales comply with any legislation which supports the use of the Welsh language (R2.10)

  YES ☐　　**NO** ☐　　**N/A** ☒

This programme is delivered in England only.

- Evidence that the programme outcomes are mapped to the content for nurses responsible for general care and will ensure successful students met the registration requirement for entry to the register in the adult field of practice (R2.11)

  YES ☒　　　**NO** ☐

- Evidence that the pre-registration nursing programme will meet the equivalent of minimum programme length for nurses responsible for general care in Article 31(3) of Directive 2005/36/EC (R2.12)

  YES ☒　　　**NO** ☐

- Evidence that programmes leading to registration in two fields of nursing practice are of suitable length to ensure proficiency in both fields of nursing (R2.13)

  YES ☐　　**NO** ☐　　**N/A** ☒

This modification relates only to the mental health field.

- Evidence to ensure that programmes leading to nursing registration and registration in another profession, will be of suitable length and nursing proficiencies and outcomes will be achieved in a nursing context (R2.14)

  YES ☐　　**NO** ☐　　**N/A** ☒

This modification relates only to nursing registration.

Standard 3: Practice learning

Approved education institutions, together with practice learning partners, must:

R3.1 provide practice learning opportunities that allow students to develop and meet the *Standards of proficiency for registered nurses* to deliver safe and effective care to a diverse range of people, across the four fields of nursing practice: adult, mental health, learning disabilities and children's nursing

R3.2 ensure that students experience the variety of practice expected of registered nurses to meet the holistic needs of people of all ages

R3.3 provide practice learning opportunities that allow students to meet the communication and relationship management skills and nursing procedures, as set out in *Standards of proficiency for registered nurses*, within their selected fields of nursing practice: adult, mental health, learning disabilities and children's nursing

R3.4 ensure technology enhanced and simulation-based learning opportunities are used effectively and proportionately to support learning and assessment and pre-registration nursing programmes leading to registration in the adult field of practice comply with Article 31(5) of Directive 2005/36/EC (included in Annexe 1 of programme standards document)

R3.5 take account of students' individual needs and personal circumstances when allocating their practice learning including making reasonable adjustments for students with disabilities

R3.6 ensure students experience the range of hours expected of registered nurses, and

R3.7 ensure that students are supernumerary.

Standards framework for nursing and midwifery education, specifically: R1.1, R1.3, R1.5; R2.9, R2.11; R3.3, R3.5, R 3.7, R3.16; R5.1, R5.7, R5.10, R5.12

R3.2 is met. Unchanged since the original approval on 9 March 2020 and modification on 10 May 2021.

- Evidence that the practice learning opportunities allow students to meet the communication and relationship management skills and nursing procedures, as set out in the *Standards of proficiency for registered nurses*, within their selected fields of nursing practice: adult, mental health, learning disabilities and children's nursing (R3.3)

MET ☒   **NOT MET** ☐

R3.3 is met. Evidence in the documentation confirms that students undertaking the NDA mental health route have practice learning opportunities that enable them to meet the FN:SPRN. The school works with EPs to develop appropriate placement experiences.

The EPs at the visit have experience of pre-registration mental health nursing programmes and apprenticeships, and are able to discuss the nature of the NDA in mental health nursing. EPs explain the arrangements they're putting in place to ensure that students are able to undertake an appropriate range of placement experience, and confirm that the requisite support is in place.

Students at the visit confirm that placement learning opportunities are well organised, and practice supervisors and practice assessors are supportive and well prepared for their role. Students undertake an appropriate range of placement experiences and consistently report that their link tutors and academic assessors engage with clinical staff to support their practice experience.

- Evidence to ensure technology enhanced and simulation-based learning opportunities are used effectively and proportionately to support learning and assessment and pre-registration nursing programmes leading to registration in the adult field of practice comply with Article 31(5) of Directive 2005/36/EC (R3.4)

Standard 4: Supervision and assessment
Approved education institutions, together with practice learning partners, must:

R4.1 ensure that support, supervision, learning and assessment provided complies with the NMC *Standards framework for nursing and midwifery education*

R4.2 ensure that support, supervision, learning and assessment provided complies with the NMC *Standards for student supervision and assessment*

R4.3 ensure they inform the NMC of the name of the registered nurse responsible for directing the education programme

R4.4 provide students with feedback throughout the programme to support their development

R4.5 ensure throughout the programme that students meet the *Standards of proficiency for registered nurses* and programme outcomes for their fields of nursing practice: adult, mental health, learning disabilities and children's nursing

R4.6 ensure that all programmes include a health numeracy assessment related to nursing proficiencies and calculation of medicines which must be passed with a score of 100%

R4.7 ensure that students meet all communication and relationship management skills and nursing procedures within their fields of nursing practice: adult, mental health, learning disabilities and children's nursing

R4.8 assess students to confirm proficiency in preparation for professional practice as a registered nurse

R4.9 ensure that there is equal weighting in the assessment of theory and practice

R4.10 ensure that all proficiencies are recorded in an ongoing record of achievement which must demonstrate the achievement of proficiencies and skills set out in *Standards of proficiency for registered nurses*, and

R4.11 ensure the knowledge and skills for nurses responsible for general care set out in Article 31(6) and the competencies for nurses responsible for general care set out in Article 31(7) of Directive 2005/36/EC for pre-registration nursing programmes leading to registration in the adult field of practice have been met. Findings against the standards and requirements

Provide an evaluative summary from your documentary analysis and evidence AND discussion at the approval visit to demonstrate if assurance is provided that the QA approval criteria below is met or not met

- There is evidence of how the programme will ensure how support, supervision, learning and assessment provided complies with the NMC *Standards framework for nursing and midwifery education*. (R4.1)

  MET ☐   **NOT MET** ☒

R4.1 is not met. During the visit the programme team confirm that apprenticeship partners are required to sign an agreement confirming their support and engagement in the programme. These haven't been completed at the time of the visit. The programme team must provide written evidence of commitment by EPs. (Condition one)

The school provide assurance that current teaching resource is adequate for the delivery of the NDA in mental health nursing. Given the potential increase in student numbers, the panel recommend that the programme development team leader should monitor and review academic staff resource availability in mental health nursing, to ensure there are enough resources to run the programme effectively. (Recommendation two)

- There is evidence of how the *Standards for student supervision and assessment* are applied to the programme. There are processes in place to identify the supervisors and assessor along with how they will be prepared for their roles. (R4.2)
